

Table 2

CPT codes for conventional PDT. The drug is reported separately using the appropriate J-code. Daylight PDT is currently not a service reportable with any of the approved PDT CPT codes. If curettage is performed as part of the daylight PDT procedure, the 17000 series of codes can be used.

Code	Description	2020 Medicare national reimbursement
96567	<i>Photodynamic therapy by external application of light to destroy premalignant lesions of the skin and adjacent mucosa with application and illumination/activation of photosensitive drug(s), per day</i>	\$136.06
